Voters Approve \$291,100 District Budget

Third Taxing District Electrical Department General Manager, George Leary, explains the Department's finances.

A sparse crowd of 51 voter's attended the Third Taxing District's Annual Meeting Wednesday night, March 1st at the St. Thomas Parish Hall. The three hour long program used Power Point visual presentations to illustrate the financial integrity of both the Electrical Department and the District.

District chairman, David Brown, opened the meeting with an introduction of the newest principals of the District including newly elected commissioner Tim Plunkett and treasurer Connie Discala, and newly appointed counsel Simon Sumberg.

George Leary, general manager of the Electrical Department, explained the revenue base of the Department and how federal and state beauracasy will drive up the cost of electricity in the months to come.

Commissioner Paul Coggin, who developed the power point presentation, explained the funds availability from the Electric Department and the District amenities the transfer of funds, about to be voted on, will accommodate.

The funds availability assumes the negotiation of the long overdue firehouse lease bringing \$42,000 into the Sources of District Funds column.

As in last year's budget, monies were set aside and earmarked for further improvement of our District assets, such as repairs to the library and firehouse.

The amount requested from the East Norwalk Improvement Association to operate their library was set at \$135,000.

Visit our webpage at www.ttd.gov for complete power point presentation

Business of the Month

Teddy's Limousine Service

Originally started in Westport in 1932 by Teddy Tedesco, Teddy's Taxi and Limousine Service was bought by the Wisniewski family in 1978. Since the Wisniewskis were native Norwalkers and life long residents, they divested themselves of the taxi business in Westport and brought Teddy's Limousine Service home to East Norwalk. Shelly, Charles, and Ted are still at the helm with many of their tenured employees still with the firm. "Leo Keehan was one of the original managers at Teddy's in Westport and is still with us today," says a proud Shelly Wisniewski.

First housed next to Mr. Frosty on First Street (now Mr. Chubby's), the family owned business settled into their present location on Rowan Street in 1987.

Their well maintained fleet includes all new Lincoln Town Cars and Limousines, plus a Cadillac Escalade and Ford SUV. A car designed for everyone's needs with an experienced driver to match.

A carload of people to NYC, LaGuardia, or JFK costs only \$165, inclusive of tolls and tip. That is \$41.25 per person, one way, for a party of four. And you are picked up at your front door and delivered to your theater or restaurant in NYC or your departure gate at the airports.

The next time you and your friends are planning a trip to NYC or the airports, forget about driving and where to park or train and taxi schedules - give Teddy's a call at 866-2231 and be delivered door to door.

Serving lower Fairfield County since 1978, Teddy's Limousine Service offers one of the best corporate and personal limousine services in Fairfield County. The family owned business is a phone call away!

District Weathers Wind Storm

While thousands of families elsewhere in lower Fairfield County were without electricity for days, thanks to the integrity of our wires and poles and our men who maintain them, our distribution system was hardly touched. We were able to volunteer our line crew to help CL&P repair a lot of their downed system.
